Properly managing and protecting your knowledge and know-how should be an integral part of the overall management of your Horizon 2020 project. An efficient and strategic knowledge management including the safeguarding and protection of your intangible assets through Intellectual Property Rights (IPR) and confidentiality become very important.

The expert from the European IP Helpdesk will guide you through the way in which the drafting and

negotiation of consortium agreements should be addressed, with additionally more information about IPR challenges and common pitfalls in Horizon 2020 projects.

Target audience: representatives, researchers from companies and academic institutes located in Flanders, in view of current or future Horizon 2020 participation.
