
[WIPO: New interface for Hague E-filing released!](#)

Since 19 November 2018 the old interface is no longer available.

The new Hague System E-Filing simplifies the filing and managing process of on-line international design applications. It is modern, accessible, and fast. It introduces modern features such as an improved design, simpler application screen, and new payment methods.

More information on the revamped Hague E-Filing can be found [here](#).

If you are looking to improve your knowledge on the Hague System, learn about its features and benefits, or want to know all about the latest changes to the international design system, register for the Hague System Seminar that will be held on 7 December at WIPO's premises in Geneva, Switzerland.
