
[Survey on Patenting Practices in Cultural and Creative Industries](#)

Are you an individual working in the cultural and creative industries (CCI) sector?

Do you have a company working in the field of CCI?

Are you an intermediary or managing a hub/network/workspace for CCI?

Your opinion on IP and patenting practices for CCI businesses is wanted!

The Creative FLIP project has developed a survey aiming to identify the patenting and IP practices of companies from the Cultural and Creative Industries (CCI) sector, and to unveil their perceptions on patenting in general.

The answers are collected and analysed anonymously, and will be used as an input to report on patenting practices among CCIs, for the Creative FLIP project.

Please access the survey [here](#).

Creative FLIP is a project co-funded by the DG Education, Youth, Sport and Culture of the European Commission under the Grant Agreement No. EAC-2018-0291. It is being managed by a Consortium led by Goethe-Institut e.V. (DE) together with partners; IDEA Strategische Economische Consulting (BE), vva Brussels Sprl (BE), 3s Unternehmensberatung GmbH (AT), Institut de la Propriété Intellectuelle Luxembourg G.I.E (LU) and Bios Exploring Urban Culture Foundation/European Creative Hubs Network (GR).
